APPLICATION RATES

Soil Application - 15-25L/ha at normal fertiliser intervals, as required, from planting to flowering with a minimum of 400L of water/ha

Trickle - 7-15L/ha. Apply weekly or as required.

Water Injection- 4-7L/ha with maximum effective water rates.

Fertigation - Dilute FERTIFLO H at rate 1-10 before using in drip lines
The above rates should be used as a guide only.
Fertifo H is designed to be used in place of or in conjunction with basal applications.
The amounts of product used will depend on individual crop requirements

Fertiflo H is not suitable for use with low volume water rates such as aerial application.

MIX ONLY SUFFICIENT FERTIFLO H FOR USE THE SAME DAY.

MIXING AND SPRAYING
1. Agitate thoroughly before use
2. Half fill tank with agitators running
3. Add compatible chemicals & continue agitating
4. Add FERTIFLO H and then water to total requirements while continuing agitation

ANALYSIS %W/V g/L
Nitrogen (N) as ammonium 8.55 85.5
as nitrate 5.43 54.3
as urea 5.06 50.6

GENERAL INSTRUCTIONS

COMPATIBILITY
Rutec products are widely compatible with other agrochemicals. Contact your distributor for information.

STORAGE AND DISPOSAL
Store in the closed original container, in a well-ventilated area as cool as possible. Protect from frost. Do not store for prolonged periods in direct sunlight.
Triple rinse containers before disposal and add hoses to tank mix or dispose of rinseate in a disposal pit away from desirable plants, their roots and watercourses.

On-site disposal of undiluted chemicals is unacceptable. Destroy empty containers by breaking, crushing or puncturing them.

Dispose of the containers at a local authority landfill that does not burn its refuse. If there is no local authority landfill readily available in your area, bury the containers to a depth of 500mm or more at a licensed/approved disposal site. In some states wastes can only be buried at a licensed landfill. Do not burn empty containers or product.

SPILLAGE
Hose small spillage (less than 1 litre of concentrate) away with a large excess of water. Large spillage should not be directed to drains. Large spillage should be absorbed in sawdust or sand and the absorbent material containing the product disposed of in a sealed container at an approved disposal site.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT
Do NOT contaminate streams, rivers or waterways with the chemical or used containers.

SAFETY DIRECTIONS
Harmful if swallowed. Avoid contact with eyes, skin and clothing.
Wash thoroughly with soap and water after handling. Avoid inhaling spray mist.

FIRST AID
If poisoning occurs, contact a doctor or Poisons Information Centre Ph: 13 11 26. If in eyes, flush with water for 15 minutes and see a doctor.

EXCLUSION OF WARRANTIES AND LIMITATIONS OF LIABILITY
The purchaser acknowledges that no express or implied warranty, condition, description or representation is given or made by Rutec Pty Ltd (ABN 91 002 846 988) in relation to this product. To the maximum extent permitted by the law, all warranties, terms, conditions and any duty of care which would otherwise be implied or arise by operation of law, statute or use in relation to this product are hereby excluded as against any and all persons, whether purchasers of this product or not.

To the maximum extent permitted by law, Rutec’s total liability to any person in connection with this product, whether arising from a breach of any express or implied term, condition or warranty, any duty of care or otherwise, other than any liability which by these terms or otherwise is excluded, shall not exceed the amount paid by the purchaser to the vendor for this product, whether or not such liability results from or involves negligence on the part of Rutec.
